Dear Mayor & City Commissioners

This proposed budget for fiscal year beginning October 1, 2022 and ending September 30, 2023 targets the management of the city's basic services with strict use of funds earmarked for operational expenses, accrued debt, and provides a positive fund balance allocated to build up our city's reserves.

Garbage Rates: The City contracts with Republic Services (formerly, ACI Recycling and Disposal) for residential and commercial garbage services, which provides for a contractual CPI (Consumer Price Index) rate increase not to exceed 6% annually. Republic Services has will not increase the rates this coming year and no increase; accordingly this year's proposed budget does not propose an increase.

Property Liability & Workers Compensation Insurance:

Texas Municipal League Intergovernmental Risk Pool will continue coverage for property, liability and workers compensation. Within the past few years the city has experienced a higher volume of claims filed against both liability and property insurances, and due to these circumstances, our rates may increase.

CAPITAL IMPROVEMENTS PROGRAM:

The city established a capital improvements program to provide guidance of making reasonable and diligent efforts to improve the city's water supply, water systems, treatment and distribution facilities; wastewater systems, collection, treatment and distribution facilities; storm water systems, drainage and flood control facilities; street improvements to include sidewalks and lighting improvements; municipal buildings and facilities; parks and recreational facilities, municipal equipment and operations; patrol vehicles, utility vehicles, light or heavy machinery, tools, computer technology and software programs used for municipal operations.

The City's Comprehensive Master Plan adopted provides short and long-range goals and objectives for the City, of which shall be reviewed not less than annually to determine capital needs and proposed budget funding factors. The Comprehensive Master Plan also suggests the city set-aside a restricted amount of funds annually to support Water, Sewer, Streets and Drainage; The implementation of this suggestion would increase proposed expenses by \$100,000 in both General and Utility Fund Budgets. At this time, these strict allocations are not feasible with current bond projects under construction.

Policy Recommendations:

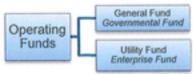

Cities adopt necessary administrative and financial policies to assist management in defining reasonable measures when evaluating operating costs, and making decisions that may affect the performance of city services and operations, or its associated funding. The city has many great policies in place; however, two are to be considered:

1) Grants Application and Management Policy. Most grant applications have terms or conditions, and include a required percentage of matching contributions; thus, this can lead to over-application and burdened commitments. This policy should address the types of grants the City wishes to seek, the amount of funds to be allocated for each type of grant project, the importance of such application, and the management of the application and its construction. This policy should concur with the priorities listed in the Master Plan.

Respectfully Written by Ben Medina, Jr. City Administrator/Secretary, TRMC

BUDGETING FINANCIAL STRUCTURE

The City's operating budget is an annual financial accounting of a plan prepared the Mayor the Chief Finance Officer and by City Administrator to forecast the operational revenues and expenses of the City for the succeeding fiscal year. The Chief Finance Officer shall use prudent revenue and expenditure assumptions for the development of the financial forecast and budgeting for all municipal funds. Proposed budgets shall be conservative and realistic to the nature of the city's operations, and shall not operate in the deficit. The City's annual operating budget consists of two major funds, the General Fund (Governmental Fund) and the Utility Fund (Enterprise Fund).

The **General Fund** (Governmental Fund) is the general operating fund of the City. It accounts for all financial resources and transactions, except those required or dedicatedly accounted in another fund of the City. Generally, revenues accounted for in the general fund are produced by taxes – sales and use, franchise, property assessment, or municipal fines and fees; and those revenues fund the municipal expenses of general administration, police services, streets and park maintenance, and municipal office facilities.

The **Utility Fund** (Enterprise Fund) primarily accounts for user fees that generally generate their own revenues based on user-services provided and support the expenditures related to the maintenance and operations of the user-services facilities and infrastructures. The revenues accounted for in the utility fund are produced by citizen use of water, sewer and garbage services; and those revenues fund the enterprise expenses of utility personnel, water services, sewer services, garbage services, facility and infrastructure maintenance and operations.

The City maintains other municipal fund accounts for specific purposes and projects, and each fund shall sustain a positive fund balance, sufficient to cover any debt, allocation or dedication of the funds use, such as:

The **Debt Service Fund** (Interest & Sinking Fund) is a fund utilized to pay off obligated principal and interest debts on monies borrowed by the municipality.

The General Fund Contingency is funds reserved for capital purchases or operation shortfalls due to unforeseen cost increases, unanticipated revenue losses or unanticipated governmental fund expenses.

The Utility Capital Reserves Fund is funds reserved for capital purchases, capital improvements, capital debt, or operation shortfalls due to unforeseen cost increases, unanticipated revenue losses or unanticipated enterprise fund expenses, acquired from fees charged to utility service customers.

The Municipal Court Reserves Fund is funds reserved for court technology expenditures or building security expenditures that are generated by a fee charged to municipal court fines for the same purpose.

The **Grant Fund** is funds set aside for projects award through state or federal agencies, and required to be kept in separate accounts for the purpose of accurately recording a project and its construction costs; such funds shall maintain a positive balance to sufficiently cover the project(s) authorized. Any matching funds shall also be deposited into this fund, to ensure restricted use.

The Short-Lived Asset Fund is funds reserved annually, as determined in mandatory compliance for the receipt of federal funds, for the life of a loan to pay for repairs and/or replacements of major system assets specifically improved through federal funding programs issued.
